

CORRIGENDUM

Corrigendum to “Umbilicariaceae (lichenized Ascomycota) – trait evolution and a new generic concept” [in Taxon 66: 1282–1303. 2017]

Evgeny A. Davydov, Derek Peršoh & Gerhard Rambold

DOI <https://doi.org/10.12705/671.30>

The new combinations published on page 1298 were not validly published because identifiers (i.e., MycoBank numbers) were inadvertently omitted. Moreover, for *Umbilicaria hispanica* the incorrect basionym (*Lasallia brigantium* var. *hispanica* Frey) was cited instead of *Umbilicaria brigantium* var. *hispanica* Frey. The new combinations are validated here as follows:

Umbilicaria daliensis (J.C.Weii) Davydov, Peršoh & Rambold, **comb. nov.** [MB 823974] ≡ *Lasallia daliensis* J.C.Weii in Acta Mycol. Sin 1(1): 21. 1982.

Umbilicaria hispanica (Frey) Davydov, Peršoh & Rambold, **comb. nov.** [MB 823979] ≡ *Umbilicaria brigantium* var. *hispanica* Frey in Ber. Schweiz. Bot. Ges. 59: 443. 1949.

Umbilicaria sinorientalis (J.C.Weii) Davydov, Peršoh & Rambold, **comb. nov.** [MB 823976] ≡ *Lasallia sinorientalis* J.C.Weii in Acta Mycol. Sin. 1(1): 23. 1982.

Umbilicaria xizangensis (J.C.Weii & Y.M.Jiang) Davydov, Peršoh & Rambold, **comb. nov.** [MB 823978] ≡ *Lasallia xizangensis* J.C.Weii & Y.M.Jiang in Acta Phytotax. Sin. 20(4): 500. 1982.

We are grateful to James Lendemer (New York Botanical Garden) for bringing these errors to our attention.
