INFORMATION FOR SUBSCRIBERS

Australasian Lichenology is published twice a year. Each of those two issues by convention is called a Volume, and is numbered then dated either January or July of that year. Because of steadily rising printing and postage costs, copies are e-mailed to most subscribers as electronic .pdf files. Such files can be opened and read on either a PC or a Macintosh computer using Adobe's Acrobat® Reader (version 5.0 or later). From Adobe's website (www.adobe.com), you can download a free copy of Acrobat Reader that's compatible with your computer's operating system. An electronic journal offers the advantage of not only requiring no shelf space but also of being quickly searchable by computer. However, any subscriber who prefers hard-copies can print them out.

The journal is sent free to all electronic subscribers. To meet the requirement of the nomenclatural Code that printed descriptions of new taxa must be lodged in internationally recognized libraries and herbaria, a few selected library and herbaria subscribers will continue to get printed hard-copies.

If you wish to subscribe electronically, e-mail your request and your current e-mail address to the journal editor at nancym@micro-opticspress.com. If you later change your e-mail address, be sure to inform the editor.

Volumes 58 and later can now be downloaded free from the website Recent Literature on Lichens (RLL). The directory is <http://www.nhm.uio.no/botanisk/lav/RLL/AL/>. Those same volumes plus searchable scans of Volumes 41–57 can be downloaded from http://www.anbg.gov.au/abrs/lichenlist/Australasian_Lichenology.html

INFORMATION FOR AUTHORS

Research papers submitted to *Australasian Lichenology* must be original and on some aspect of Australasian lichens or allied fungi, and they are refereed. The journal also welcomes newsworthy items on lichenologists who are either studying Australasian lichens or who are visiting the region.

The journal has no page charge, nor does it charge for colour plates. A manuscript can be e-mailed to W. Malcolm at nancym@micro-opticspress.com as (1) a file saved in "rich text format" (.rtf) plus (2) a cross-platform file saved in "portable document format" (.pdf). See a recent issue for a guide to text formatting and reference citations.

Drawings should be inked originals. They and photographs can be scanned at 600 dpi and then e-mailed as TIFF (.tif) or highest-quality JPEG (.jpg) files. In size they must be at least 1.5 MB.

Australasian Lichenology provides to authors free of charge an electronic off-print of each published paper, in the form of a .pdf file. Authors are free to make unlimited copies of that off-print.

Australasian Lichenology is the official publication of the Australasian Lichen Society, and formerly was named the *Australasian Lichenological Newsletter*. Its Editorial Board is W.M. Malcolm, J.A. Elix, P.M. McCarthy, A. Knight, G. Kantvilas, and S.H.J.J. Louwhoff.
