ABSTRACT

This communication is in continuation with “*Bibliography to the Indian lichens from the year 2010 onwards*” published in a special volume of this journal by Joseph et al. (2018). Here a total of 146 research articles, books and chapters published during the years 2018 and 2019 are listed. The list also includes some of the references missing in the previous list. It is interesting to note that the range of publications during this period included all aspects of lichenology, starting from taxonomy to bioprospecting and lichenized fungi to endolichen and lichenicolous fungi. The missing publications, if any, in this list will be included in the forthcoming volume of the journal.

BIBLIOGRAPHIC ACCOUNT

Year 2018

- Bajpai R, Nayaka S and Upreti DK (2018) [2017]. Extended distribution of lichen genera *Heiomasia* and *Herpothallon* in India. *Phytotaxonomy* 17: 31-38.
- Bajpai R, Semwal M and Singh CP (2018). Suitability of lichens to monitor climate change. *Cryptogam Biodiversity and Assessment, Special Volume*: 182-189.
- Bajpai R, Shahi SK, Kanwar L, Mahobia D, Prajapati AK, Upreti DK (2018). Current status of lichen diversity in Chhattisgarh state, India. *Cryptogam Biodiversity and Assessment* 3(1): 33-42.
- Bajpai R, Shukla V, Singh CP, Tripathi OP, Nayaka S and Upreti DK (2018). Lichen community composition in Tawang District of Arunachal Pradesh, tool for long-term climate change monitoring. *Proceedings of the National Academy of Sciences, India Section B: Biological Sciences* 88(3): 915-922.
- Bajpai R, Upreti DK and Nayaka S (2018). The lichen genera *Lepraria* (Stereocaulaceae) and *Leprocaulon* (Leprocaulaceae) in India. *Phytotaxa* 356(2): 101-116.
- Bisht K, Joshi Y, Upadhyay S and Metha P (2018). Recession of Milam Glacier, Kumaun Himalaya, observed via lichenometric dating of Moraines. *Journal of the Geological Society of India* 92(2): 173-176.
- Chandra K and Joshi Y (2018). Lichen diversity assessment of Darma Valley, Pithoragarh, Uttarakhand. *G- Journal of Environmental Science and Technology* 5(6): 83-87.
- Das K, Rossi W, Leonardi M, Ghosh A, Bera I, Hembrom ME, Bajpai R, Joseph S, Nayaka S, Upreti DK, Wang X, Hofstetter V and Buyck B (2018). Fungal Biodiversity Profiles 61-70. *Cryptogamie, Mycologie* 39: 381-418.
- Dalasingh BK, Mahalik G, Parida S and Biswal SK (2018). Some pollution indicating plants found in Puri-Konark Marine Drive, Odisha, India. *International Journal of Science Technology and Management* 7(9): 1-5.
- Debnath RP, Mandal N and Rout J (2018). Phytochemical screening of macrolichens *Acrosyphus sphaerophoroides* and *Dirinaria consimilis* from North East India for antioxidant and antibacterial activities. *Cryptogam Biodiversity and Assessment, Special Volume*: 190-196.
- Divakar PK and Crespo A (2018). Molecular phylogeny uncovers an overlooked species in the macrolichen family Parmeliaceae (Ascomycota) from India. *Cryptogam Biodiversity and Assessment, Special Volume*: 14-21.
- Dudani SN, Joseph S and Nayaka S (2018). The unrealized potential of lichens in nature. *CEiBa Newsletter* 1(4): 3-8.
- Dudani SN, Nayaka S, Ingle KK and Joseph S (2018). New species and new records of lichenized Ascomycota from tropical deciduous forests of the Western Ghats biodiversity hotspot, India. *Turkish Journal of Botany* 42(3): 346-353.

Additions to the bibliography of Indian lichens in the years 2018 and 2019

- Gupta P (2018). Lichen diversity in the Terai regions of Uttar Pradesh, India. *Cryptogam Biodiversity and Assessment, Special Volume*: 115-143.
- Gupta P and Sinha GP (2018). Lichen Flora of Assam. *Indian Journal of Forestry Additional Series V*. Bishen Singh Mahendra Pal Singh, Dehra Dun, India.
- Ingle KK, Uppadhyay V, Nayaka S, Trivedi S and Sahoo D (2018). New records and an updated key of *Pyrenula* from India. *Cryptogam Biodiversity and Assessment, Special Volume*: 37-56.
- Jagadeesh Ram TAM and Sinha GP (2018). Lichens of Neora Valley National Park. *Cryptogam Biodiversity and Assessment, Special Volume*: 144-175.
- Jagadeesh Ram TAM and Sinha GP (2018). Additional lichen records from the Andaman & Nicobar Islands – 4. *Indian Journal of Forestry* 41(2): 207-215.
- Joseph S, Dudani SN and Nayaka S (2018). First report of lichens from St. Mary's Islands, the south west coast, India. *Studies in Fungi* 3(1): 264-270.
- Joseph S, Nayaka S and Sinha GP (2018). Bibliography to the Indian lichens from the year 2010 onwards. *Cryptogam Biodiversity and Assessment, Special Volume*: 207–231.
- Joseph S, Nayaka S, Randive P and Upreti DK (2018). New records and a key to the species of *Malmidea* (lichenized Ascomycota) from India. *Feddes Repertorium* 129(3): 189-192.
- Joseph S, Sinha GP and Ramchandran VSR (2018). Taxonomic Revision of the Lichen Genus *Opegrapha sensu lato* (Roccellaceae) in India. *Indian Journal of Forestry Additional Series VI*. Bishen Singh Mahendra Pal Singh, Dehra Dun, India.
- Joshi S, Upreti DK, Divakar PK, Lumbsch HT and Lücking R (2018). A re-evaluation of thelotremoid Graphidaceae (lichenized Ascomycota: Ostropales) in India. *The Lichenologist* 50(6): 627-678.
- Josh Y (2018). Documentation of lichenicolous fungi from India - Some additional reports. *Kavaka* 51: 30-34.
- Joshi Y, Bisht K, Upadhyay S and Chandra K (2018). Three new records of lichens from India. *Nelumbo* 60(1): 90-94.
- Joshi Y, Tripathi M, Bisht K, Upadhyay S, Kumar V, Pal N., Gaira A, Pant S, Rawat KS, Bisht S, Bajpai R and Halda JP (2018). Further contributions to the documentation of lichenicolous fungi from India. *Kavaka* 50: 26-33.
- Joshi Y, Upadhyay S, Shukla S, Bisht K, Chandra K and Tripathi M (2018). Sacred groves: treasure house for macrolichen diversity in Kumaun Himalaya. *Proceedings of the National Academy of Sciences, India, Section B: Biological Sciences* 88(3): 935-948.
- Kekuda TP, Vinayaka KS and Sachin MB (2018). Chemistry, ethnobotanical uses and biological activities of the lichen genus *Heterodermia* Trevis. (Physciaceae; Lecanorales; Ascomycota): A comprehensive review. *Journal of Applied Pharmaceutical Science* 8(5): 148-155.
- Khader SZA, Ahmed SSZ, Venkatesh KP, Chinnaperumal K and Nayaka S (2018). Larvicidal potential of selected indigenous lichens against three mosquito species—*Culex quinquefasciatus*, *Aedes aegypti* and *Anopheles stephensi*. *Chinese Herbal Medicines* 10(2): 152-156.
- Kholia H, Upreti DK, Tiwari LM and Mishra GK (2018). Lichens of Nainital, Western Himalaya. Shree Publishers & Distributors, New Delhi.

ACKNOWLEDGEMENTS

The Authors (SN and SJ) are thankful to the Director, CSIR-NBRI for providing the library facilities under project OLP 101. GPS is thankful to the Director, BSI, Kolkata for facilities. One of the author (SJ) is thankful to DST, New Delhi for financial assistance under DST INSPIRE Faculty scheme (IFA18-LSPA 124). We thank Dr. D.K. Upreti, CSIR-Emeritus Scientist, CSIR-NBRI, Lucknow and all the lichen researchers of India who shared their publication list.
